

Practical and versatile: MEIKO racks and holders

Racks and holders Product range

Focus on users:
MEIKO cleaning and disinfection appliances

MEIKO cleaning and disinfection appliances not only meet the highest standards of safety, cleanliness and hygiene – they are also designed to be highly efficient and easy to use.

Our cleaning and disinfection appliances offer an impressively wide range of functions and features. One example is the MEIKO range of wash racks and holders which make it easier than ever to get the results you want.

An all-purpose, universal rack is included as standard with all MEIKO cleaning and disinfection appliances. This rack is designed to accommodate all the care utensils typically encountered in a nursing environment, including bedpans of various shapes and sizes, lids, commode pots, kidney bowls, and numerous other items.

MEIKO can also provide custom racks and holders tailored to your specific requirements. All our racks are designed to be functional and practical – and switching from one rack to another couldn't be easier!

Our flexible quick-change system works with all MEIKO racks and holders, true to our policy of offering the ultimate in user-friendliness.

Focus on benefits: MEIKO universal rack

Exceptional benefits that make life easier for care personnel

- Universal rack available in two different versions (SUH 1 or SUH 2)
- Simply place the utensils in the rack – no need to empty them first
- Open door also acts as a drip tray
- As soon as you close the door the utensils are emptied in a sealed environment
- Rack designed to accommodate all the standard care utensils used on wards
- Switching from one rack to another is quick and easy, offering greater flexibility in everyday work situations
- Optional accessory: Basket inserts for small items which fit neatly into the universal rack

Exceptional benefits that promote excellence in nursing care

- Easier handling of care utensils
- Superb standards of hygiene
- Reliable, user-friendly operation

MEIKO technology for clean solutions.
