Instructions for use:

MEIKO ACTIVE D-GS 1410 GLASS is used with a dosing unit. The dosage is determined by water hardness, time to wash, soil level, type of dishwashing machine and tableware etc.

Recommended dosage:

1 – 3 g/l water

Special information!

In case of a product switch, a service technician needs to attend. Before the first use of a new product type, always rinse dosing line with clean water to avoid any build-up of crystallisation. Not for use on aluminium and other soft metals. Do not mix with any other products!

Composition and Detergents Regulation information

Please see safety data sheet.

Storage conditions

Store separated from acids. Store between 0 and 40 °C.

Safety information

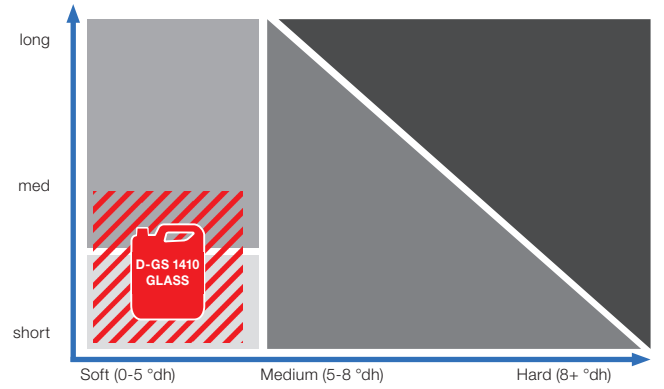

For professional use only. For further information and safety instructions, see product label and safety data sheet.
