

# MEIKO<sup>®</sup> ACTIVE

## R-PM 2690 PL

Highly concentrated rinse additive  
for plastic ware

- suitable for all types of tableware, but especially suited to plastic ware
- provides clean, sparkling results
- ensures fast drying of tableware
- the de-foaming formulation increases machine efficiency
- highly concentrated formula gives very low in-use cost

**Instructions for use:**

**MEIKO ACTIVE R-PM 2690 PL** is used with a dosing unit. The dosage is determined by water hardness, tableware, type of dishwashing machine etc.

**Recommended dosage**

0,2 – 0,5 ml/l water

**Special information!**

In case of a product switch, a service technician needs to attend. Before the first use of a new product type, always rinse dosing line with clean water to avoid any build-up of crystallisation. Do not mix with any other products!

**Composition and Detergents Regulation information**

Please see safety data sheet.

**Storage conditions**

Store between 0 and 40 °C.
