**Instructions for use:**

**MEIKO ACTIVE FR 81** is used with a dosing unit. The dosing is determined by water hardness, wash cycle time, degree of soiling, type of dishwashing machine, type of washware, etc.

**Recommended dosing:**

2.0-5.0 g/l water

**Specific note:**

If products are switched, a service technician must attend. Before first using a new product type, always wash the dosing pipe with clean water to avoid any build-up of crystallisation. Not for use on aluminium or other light metals. Do not mix with any other products!

**Composition and Detergents Regulation information**

Please see safety data sheet.

**Storage conditions**

Store separately from acids. Store between 0 and 40 °C.

**Safety notice**

For professional use only. For further information and safety notices, see product label and safety data sheet.

**Recommended rinse aids**

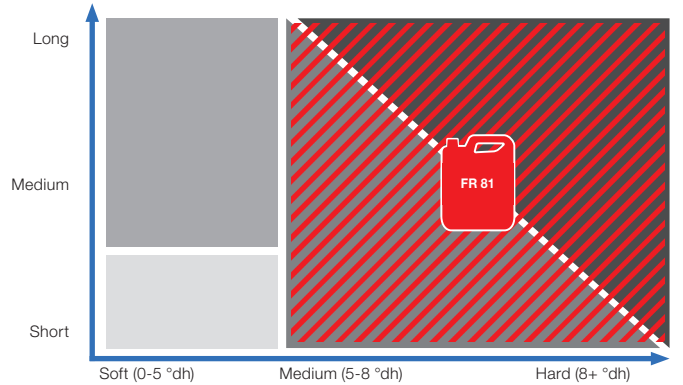

MEIKO ACTIVE KS N  
MEIKO ACTIVE KS U  
MEIKO ACTIVE KS S  
MEIKO ACTIVE KS PL (*when washware is primarily made of plastic*)
