

MEIKO MARIS TRAINING

Technology made simple through practical, professional training for your onboard warewashing systems.

The latest technology, reliable know-how

Our technical training courses give you practical, easy-to-understand guidance on how to analyze and resolve malfunctions, as well as perform maintenance and minor repairs yourself. This helps ensure your system remains reliable and safe to operate.

Our service professionals offer top-notch technical know-how combined with extensive hands-on experience in the maritime sector. Drawing on their wide-ranging expertise in warewashing technology, they provide real-world knowledge as well as professional support with complex technical issues.

MEIKO MARIS TRAINING

Technology made simple through practical, professional training for your onboard warewashing systems

Our goal

Knowledge that lasts. Safety that works!
Our training courses ensure that technical knowledge and hands-on experience stay on board. With rotating shipboard personnel, frequent or regular trainings help ensure that issues are quickly analyzed and corrected, and maintenance or repairs can be carried out reliably – ensuring continued operational safety of your MEIKO warewashing systems.

Contents

- Mechanics
- Structure and function of MEIKO machines
- Error analysis and repair
- Electromechanics
- Electronics – control systems
- Knowledge assessment
- Authorization with certification

Target group

Technical personnel responsible for maintenance, repair and operation

Prerequisites

Basic understanding of technical systems;
willingness to learn in a practical training environment

Training locations

Exclusively on board your vessel, on your MEIKO equipment
