

MEIKO MARIS ASSESSMENT

Get a clear picture of the technical condition of your onboard warewashing systems and their critical components.

Planning warewashing operations with confidence

Get a detailed insight into the current condition of your systems. Identify maintenance needs early and prepare maintenance work more effectively. This helps you plan ahead with confidence – and reduce unplanned disruptions in your day-to-day warewashing operations.

Our service professionals offer top-notch technical know-how combined with extensive hands-on experience in the maritime sector. Drawing on their wide-ranging expertise in warewashing systems, they assess machines, functions, processes and safety-critical aspects thoroughly and methodically, never losing sight of the real-world context.

MEIKO MARIS ASSESSMENT

Get a clear picture of the technical condition of your onboard warewashing systems and their critical components.

Our goal

Boost transparency, improve reliability and make planning more predictable – with an audit-ready evaluation of your MEIKO warewashing systems, hygiene processes and crew routines. Our marine experts assess your machines, operating parameters and environmental conditions using standardized checklists. The resulting report provides a clear overview of critical factors, opportunities and priorities. This gives you the solid foundation you need to plan, budget and make technical decisions regarding your onboard MEIKO warewashing systems.

How the assessment works

- 1. Define goals:** Together, we determine the scope of the assessment.
- 2. Onboard analysis:** Our marine experts assess your systems and processes under real operating conditions, checking temperatures, washing results and compliance with USPH standards and evaluating your onboard inventory.
- 3. Establish the facts:** A structured assessment documents the current condition of your systems.
- 4. Assess and prioritize:** Findings are ranked by importance and paired with clear, actionable recommendations – so you can prioritize next steps based on risk, cost-effectiveness and strategic benefits.
- 5. Report & review:** You receive a written report. We review the findings together to define the next steps.
