

MEIKO MARIS CARE & KITS

Protect your warewashing systems from unexpected breakdowns, minimize downtime and gain true budget transparency and predictability.

Proactive maintenance for reliable warewashing operations

Regular technical maintenance of your MEIKO warewashing systems – plus perfectly tailored OEM spare parts kits. Our combination of functional testing, cleaning, and targeted replacement of wear parts keeps your onboard equipment running smoothly, ensuring operations remain hygienic, efficient and predictable.

Our service professionals offer top-notch technical know-how combined with extensive hands-on experience in the maritime sector. Drawing on their wide-ranging warewashing expertise, they take charge of ensuring thorough and methodical maintenance – keeping your onboard MEIKO machines operating at peak performance.

MEIKO MARIS CARE & KITS

Protect your warewashing systems from unexpected breakdowns, minimize downtime and gain true budget transparency and predictability

Our goal

Standardized maintenance schedules and machine-specific kits streamline your internal logistics and eliminate bottlenecks, taking the administrative burden off your team. Routine maintenance detects potential issues early, allowing you to schedule repairs proactively, prevent downtime and significantly extend the lifespan of your machines. With our tailored spare parts kits, the right components are always on hand, making your maintenance costs predictable and easy to budget.

What's included

- End-to-end planning, scheduling and coordination of onboard servicing, including work on
 - all relevant machine components, and
 - parts specifically involved in hygiene and performance aspects.
- Replacement of predefined wear parts based on maintenance plan
- Visual checks to inspect for damage, leaks, wear and tear and technical issues
- Standardized checklists and documentation of all work performed
- Close coordination with onboard engineers regarding specific equipment setups
- Expert advice on optimal system care, correct utilization and handling
- Maintenance report including documentation of any identified issues alongside actionable recommendations
